

# THE FUTURE OF CRAFT AID INTERNATIONAL

Our projects in Peru and Ecuador are in their early stages and are only the first of many! Our vision is to take the Neema Crafts social-enterprise model to other developing countries, where people with disabilities are living in poverty and facing discrimination.

We will continue to train and equip skilled volunteers to set up employment-generating craft workshops overseas, in places where there is great need.

We will continue to run craft workshops for people with disabilities in the UK. In time, we would love to equip volunteers to run these sessions all over the country.

Join us on our journey!
